- **Vac Hose** 32 mm dia x 1.2 m long
- **Warranty** 12 months (not including consumable parts)

Rapid Vac is an Australian made back pack vacuum built to be robust and reliable. It has a steel frame and an ABS plastic body with a powerful 1200 Watt flow through motor which performs efficiently and quietly.

The Rapid Vac has been designed to minimise repair costs and down time. It is fitted with a pigtail cord and a quick fit supply lead. In case of blockages, the Rapid Vac has an auto reset thermostat to protect the motor from overheating. It also has an ergonomically designed harness to ensure the user's comfort, and 3 stages of filtration to maximise dust containment.

The Rapid Vac meets Australian Standards AS/NZS 60335.1 & 60335.2.2 and EMC AS/NZS CIPR 14.1:2003.
